CONTROLLING EMISSIONS IN DEVELOPING NATIONS

MOIRA TAGLE

PHYSICS 80

DEVELOPED VERSUS DEVELOPING NATIONS

DEVELOPED VERSUS DEVELOPING NATIONS

- THE AVERAGE AMERICAN EMITS OVER 20 TONS OF GREENHOUSE GASSES (GHGS) A YEAR.

DEVELOPED VERSUS DEVELOPING NATIONS

- ☐ THE AVERAGE AMERICAN EMITS OVER 20 TONS OF GREENHOUSE GASSES (GHGS) A YEAR.
- ☐ THE AVERAGE CHINESE EMITS ONLY 5.5 TONS - AND THE AVERAGE INDIAN EMITS A MERE 1.7 TONS.

DEVELOPED VERSUS DEVELOPING NATIONS

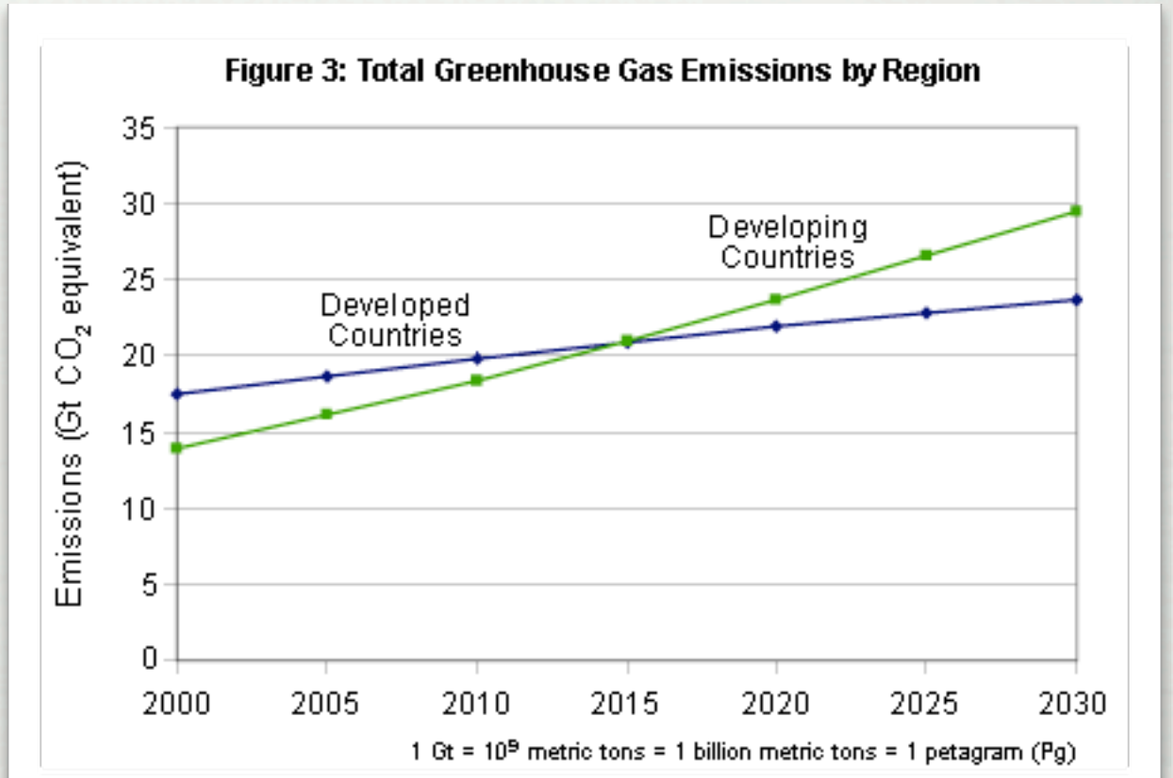
- ☐ THE AVERAGE AMERICAN EMITS OVER 20 TONS OF GREENHOUSE GASSES (GHGS) A YEAR.
- ☐ THE AVERAGE CHINESE EMITS ONLY 5.5 TONS - AND THE AVERAGE INDIAN EMITS A MERE 1.7 TONS.
- ☐ DEVELOPING NATIONS CAN USE THEIR "DIRTY ENERGY" TO FUND QUALITY-OF-LIFE IMPROVEMENTS FOR THEIR CITIZENS.

DEVELOPED VERSUS DEVELOPING NATIONS

- THE AVERAGE AMERICAN EMITS OVER 20 TONS OF GREENHOUSE GASSES (GHGS) A YEAR.
- THE AVERAGE CHINESE EMITS ONLY 5.5 TONS - AND THE AVERAGE INDIAN EMITS A MERE 1.7 TONS.
- DEVELOPING NATIONS CAN USE THEIR "DIRTY ENERGY" TO FUND QUALITY-OF-LIFE IMPROVEMENTS FOR THEIR CITIZENS.
  - DIVERTING RESOURCES TO FUND CLEAN ENERGY COULD BE DETRIMENTAL TO QOL IMPROVEMENTS

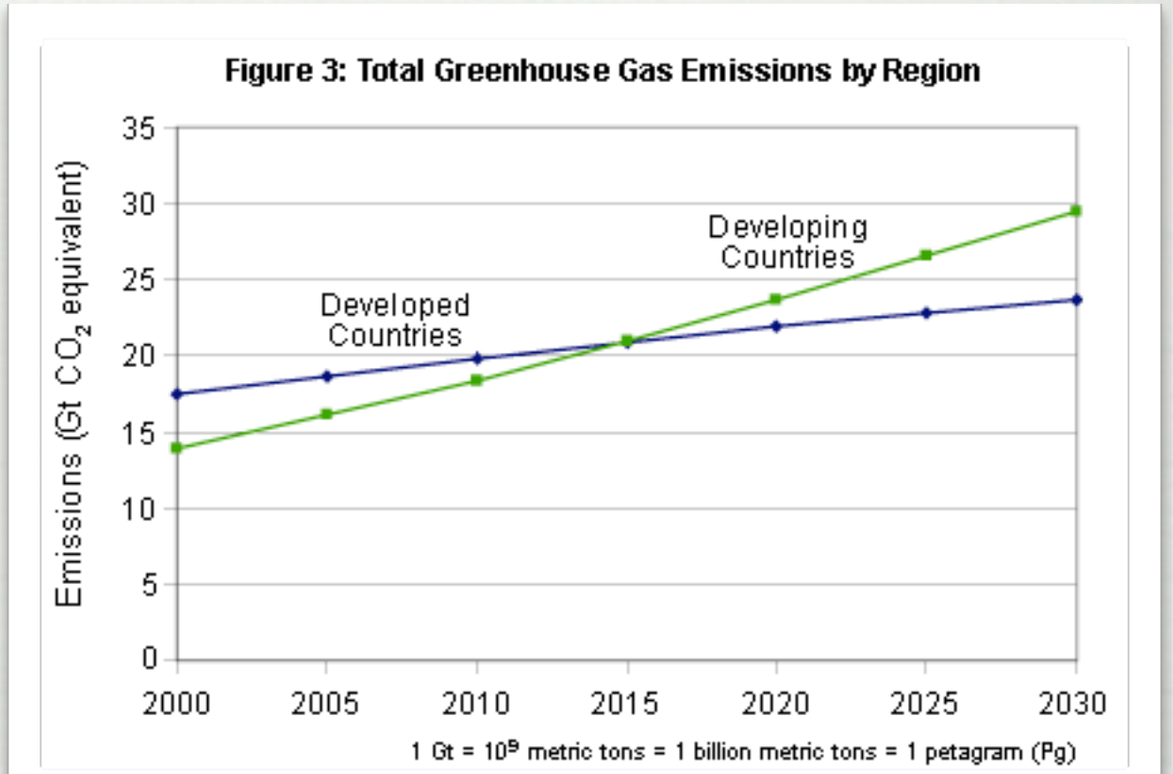
SO WHAT'S THE PROBLEM?

SO WHAT'S THE PROBLEM?



SO WHAT'S THE PROBLEM?

- EMISSIONS FROM DEVELOPING NATIONS ARE EXPECTED TO EXCEED THOSE OF DEVELOPED NATIONS BY 2015!



TO MAKE MATTERS WORSE...

TO MAKE MATTERS WORSE...

- ☐ DEVELOPING COUNTRIES WILL LIKELY BE THE HARDEST HIT IF PREDICTIONS ABOUT GLOBAL WARMING TURN OUT TO BE TRUE.

TO MAKE MATTERS WORSE...

- [ ] DEVELOPING COUNTRIES WILL LIKELY BE THE HARDEST HIT IF PREDICTIONS ABOUT GLOBAL WARMING TURN OUT TO BE TRUE.

- [ ] 80% OF THOSE WHO LIVE LESS THAN 5 METERS ABOVE SEA LEVEL LIVE IN DEVELOPING COUNTRIES

TO MAKE MATTERS WORSE...

- [ ] DEVELOPING COUNTRIES WILL LIKELY BE THE HARDEST HIT IF PREDICTIONS ABOUT GLOBAL WARMING TURN OUT TO BE TRUE.

- [ ] 80% OF THOSE WHO LIVE LESS THAN 5 METERS ABOVE SEA LEVEL LIVE IN DEVELOPING COUNTRIES

- [ ] CLIMATE CHANGE COULD REDUCE AGRICULTURAL REVENUE IN INDIA BY 90% BY 2080. (DEVELOPED NATIONS WOULD LOOSE ONLY AROUND 20%)

SLOWING DEVELOPMENT?

SLOWING DEVELOPMENT?

- ☐ MAYBE WE CAN DECREASE GHG EMISSIONS AND IMPROVE QUALITY OF LIFE?

SLOWING DEVELOPMENT?

- MAYBE WE CAN DECREASE GHG EMISSIONS AND IMPROVE QUALITY OF LIFE?
  - EXAMPLE: REPLACE COAL-BURNING STOVES WITH ELECTRIC ONES (OR SOLAR POWERED)

SLOWING DEVELOPMENT?

- MAYBE WE CAN DECREASE GHG EMISSIONS AND IMPROVE QUALITY OF LIFE?
  - EXAMPLE: REPLACE COAL-BURNING STOVES WITH ELECTRIC ONES (OR SOLAR POWERED)
- HOWEVER, THE MAJORITY OF ENERGY USED IN DEVELOPING COUNTRIES IS IN MANUFACTURING (81% IN CHINA, 65% IN INDIA)

SLOWING DEVELOPMENT?

- MAYBE WE CAN DECREASE GHG EMISSIONS AND IMPROVE QUALITY OF LIFE?
  - EXAMPLE: REPLACE COAL-BURNING STOVES WITH ELECTRIC ONES (OR SOLAR POWERED)
- HOWEVER, THE MAJORITY OF ENERGY USED IN DEVELOPING COUNTRIES IS IN MANUFACTURING (81% IN CHINA, 65% IN INDIA)
  - SO THIS IS WHAT WE NEED TO BE FIXING!

ENCOURAGING LOWER EMISSIONS

ENCOURAGING LOWER EMISSIONS

- ☐ CAP AND TRADE!

ENCOURAGING LOWER EMISSIONS

- CAP AND TRADE!
  - TURNS REDUCING EMISSIONS INTO AN ECONOMIC GOOD. COUNTRIES CAN LOWER THEIR EMISSIONS, AND BRING IN CAPITAL TO INCREASE THE QUALITY OF LIFE OF CITIZENS.

ENCOURAGING LOWER EMISSIONS

- CAP AND TRADE!
  - TURNS REDUCING EMISSIONS INTO AN ECONOMIC GOOD. COUNTRIES CAN LOWER THEIR EMISSIONS, AND BRING IN CAPITAL TO INCREASE THE QUALITY OF LIFE OF CITIZENS.
  - CREATES A GLOBAL ECONOMY AROUND SUSTAINABLE ENERGY -- DEVELOPING COUNTRIES CAN PRODUCE THINGS LIKE WIND TURBINES AND SOLAR PANELS AND SELL THEM TO DEVELOPED COUNTRIES FOR PROFIT.

ENCOURAGING LOWER EMISSIONS

ENCOURAGING LOWER EMISSIONS

- ☐ THIS IS THE PRIMARY REASON WHY EMISSION CAPS ARE LESS EXPENSIVE FOR DEVELOPING NATIONS.

ENCOURAGING LOWER EMISSIONS

- ☐ THIS IS THE PRIMARY REASON WHY EMISSION CAPS ARE LESS EXPENSIVE FOR DEVELOPING NATIONS.

- ☐ SIMPLY "CAPPING" EMISSIONS DOES NOT DO THIS.

ENCOURAGING LOWER EMISSIONS

- ☐ THIS IS THE PRIMARY REASON WHY EMISSION CAPS ARE LESS EXPENSIVE FOR DEVELOPING NATIONS.

- ☐ SIMPLY "CAPPING" EMISSIONS DOES NOT DO THIS.

- ☐ UNFAIRLY FORCES DEVELOPING COUNTRIES TO CHOOSE BETWEEN STAYING UNDER THEIR CAP OR USING RESOURCES TO INCREASE QUALITY OF LIFE.
